

Bong

by Cappellini

Giulio Cappellini | 2004

The Bong side table is round and colorful, and deceptively light. It's a playful addition to lounges, lobbies, libraries, and reading rooms. Made of fiberglass with a hollow core, the table is available in a range of colors, including Sun Yellow, Red, Anthracite, Orange, and Turquoise, as well as a White Carrara faux marble, and a Volcanic Lava faux stone finish.
