

Harbor Work Lounge™

PRODUCT INFORMATION SHEET

HAWORTH®

Work. Life. Harmony.

Part task seating, part lounge chair, Harbor Work Lounge offers the support people need to be productive, while making a stylish statement wherever work gets done. Designed by Nicolai Czumaj-Bront, Harbor Work Lounge was created for how we work and live. Have a seat. Everything is at your fingertips.

Artful

Choose from a fully or partially upholstered chair shell on a cast aluminum or wire base. Harbor Work Lounge combines form with function, style with convenience. It's a platform that supports your work, no matter what space you're in.

Versatile

Technology has blended all factions of life—work, play, family, travel. People are no longer tethered to a desk, or even an office. Harbor Work Lounge fits in wherever work gets done. Bring what you need for the day, have a seat, and accomplish all you have to do.

Productive

Dual work surfaces provide easy access to work tools for left- or right-handed use. The integrated sliding tablet is an active workspace for laptop or notepads while the suede upholstered seat wing with cup holder provides space for electronics, personal items, and a beverage. A matching ottoman doubles as a pull-up stool for quick collaboration or an auxiliary surface for personal items.
