

Xone

HAWORTH®

Xone celebrates collaboration

“Offering a complete and flexible office system solution that complements any business culture.”

Haworth helps design workspaces that improve performance. As a global leader in office furniture design and manufacturing, Haworth provides complete office solutions tailored to your needs.

Haworth has over 20 years of experience partnering with leading multinational and local firms in the Asia Pacific region, so it understands our customers' unique needs and the highly competitive business environment. Xone™ offers intelligent design to support creativity, innovation and collaboration the modern office.

Designed in Australia and manufactured across the Asia Pacific region, this office system offers a solution tailored to customers' needs within the region. Xone features sleek extended lines and minimalist European styling in a stacking tile-based system. It delivers flexibility by supporting multiple tasks seamlessly within one layout – from touchdown points, to collaborative spaces or executive spaces.

Advanced cable reticulation sets Xone apart and provides the capacity to expand as organizations grow and develop. Xone offers unrivalled cable capacity combined with a unique lay-in facility for superior cable management and ease of reconfiguration. Wide 75mm components allow fully segregated data and power cable runs so that cables can be easily added or replaced. Both these features provide flexibility and allow for office growth and future development. Wide panels combined with absorptive materials can help provide necessary acoustical privacy for concentrative work.

Xone supports organizations as they strive to be more environmentally responsible. Xone's quality and flexibility supports repeatedly and conveniently expanding, refurbishing and reconfiguring the workspace for long life-cycle. At end-of-life, up to 90 percent of the system components can be recycled. Haworth is committed to sustainable manufacturing.

Collaborative workspaces

Quality team work

Quality design

The Xone team collaboration workspace system provides an ideal modern work platform. Creatively designed to support team workspaces, Xone uses first-class materials and finishes. Thoughtful design provides layouts that support collaborative efforts while providing individual workspaces. Smart mobile discussion stations facilitate collaborative work while clever solutions address the needs for both individual and team storage.

Modern

Xone team workspaces apply sound ergonomic principles and leading technology. The long panel spine design delivers high cabling volume to workspaces in a safe and efficient manner. The spine also supports a full complement of accessories including monitor mounting systems, overhead storage units, dividers and more.

Adaptable

A hallmark of the Xone system is its flexibility. From the open workspace configuration through a variety of collaborative layouts, the system can easily be upgraded or extended to meet the needs of today's creative class of worker and the rapidly changing business environment.

Thoughtful design results

collaborative effort...

Open workspaces

Interactive office workstations

Stylish and contemporary

Ideally suited for all types of general workspaces, Xone open-desk configuration incorporates stylish elements. Light dividers and creative wing walls create a contemporary look and feel for businesses that understand modern design aesthetics. Open workspace configurations can be personalized through the introduction of fashionable colour highlights.

Technologically superior

Xone offers high-tech cable management featuring unrivalled cable capacity and fully segregated power and data cables incorporated into the panel system. Sustainable design ensures that Xone delivers environmentally sound performance and quality in addition to helping customers achieve a low environmental impact.

Flexible

Xone emphasizes system flexibility so organizations can expand or reconfigure with minimal disruption. Components such as the integrated privacy screens' conveniently stacked overhead storage units further enhance the systems performance.

Xone opens up lines of
communication by actively
reducing work space separation

Innovative workspaces

Offices for creative people

Creative work spaces

Designed for executives and independent workers, the Xone innovative workspace encourages expression and personalization with a broad range of accessories to construct a workspace that increases performance and is ideally tailored to specific work needs.

Quality

The Xone innovative development workspace configuration offers productivity tools in the highest quality construction, materials and finish. This layout also clearly demonstrates its European design through stylish and clean lines.

Ergonomics

Xone is designed with ergonomics in mind and offers workspaces that accommodate prolonged work periods in comfort.

Individuality

Knowledge workers can express their own creativity through their workspace. The innovative workspace configuration offers splashes of color and a wide range of materials to make bold statements as well as a wide selection of individualized accessories and storage solutions.

Innovation that encourages personalisation

Integration of high tech with high fashion

Image

Xone executive workspaces communicate your professional image through elegant and contemporary design and the use of high-quality materials and finishes. Executive components integrate style with technology to assure that productivity tools have the power and data connection needed to enhance performance.

Flexibility

Xone executive workspaces are built around a 1.8m spine wall that offers flexible layout and configuration with accessories such as visitor space and collaboration components. Comprehensive cable management systems facilitate enhanced adaptability.

Personalisation

A high degree of personalisation is available within the executive workspace configuration with a wide range of color and panel materials as well as component selection.

Environmentally responsible

Sustainable environmental practices instruct Xone's executive workspace design to clearly communicate the organization's environmental commitment at every level in the business.
